### EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the first sentence of the specification (as amended in the amendment filed March 8, 2004), line 1, the following has been inserted:

-- now U.S. Patent No. 6,835,369, --

### REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The prior art fails to disclose or suggest separating liquid organic compounds from a mixture of the liquid organics with water by contacting with the recited molecular sieves.

As to the claim 79 molecular sieve, the closest prior art is deemed to be Sorenson (US 5,132,020), which discloses separating alcohols from aqueous solutions by contacting with a zeolite beta. See the abstract of Sorenson. The zeolite beta of Sorenson absorbs 0.022 g/g (col. 3, lines 26-29 and lines 62) and inherently possesses a crystallite size of less than 1  $\mu\text{m}$ .<sup>1</sup> Sorenson employs the zeolite beta of Wadlinger. See col. 3, lines 26-27 of Sorenson. However, Wadlinger fails to disclose or suggest a method of making an all-silica beta. Thus, Sorenson,

---

<sup>1</sup> Sorenson makes the zeolite by the process of Wadlinger (US RE28341 and US 3,308,069). Rubin (US 5,164,170) discloses that the zeolites of Wadlinger have a crystal size of 0.01-0.05 $\mu\text{m}$ . See col. 2, lines 29-34 and 46-54 of Rubin.

alone or in combination, fails to disclose or suggest employing an all-silica beta in a process of removing organic liquids from water.

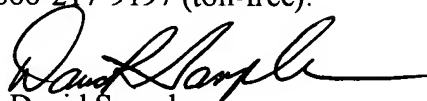

As to the claim 80 molecular sieve, the prior art fails to disclose or suggest employing a zinc containing molecular sieve having the beta topology.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
